LETTER OF TRANSMITTAL

OFFICE OF ILLINOIS DEPARTMENT OF FACTORY INSPECTION
1543 TRANSPORTATION BUILDING
CHICAGO, ILLINOIS

To His Excellency, Edward F. Dunne, Governor, Springfield, Illinois.

DEAR SIR: I have the honor to submit herewith the nineteenth annual report of the Department of Factory and Workshop Inspection for the year ending June 30, 1912.

Very respectfully,

OSCAR F. NELSON
Chief State Factory Inspector

REPORT OF STATE FACTORY INSPECTION

To His Excellency, Edward F. Dunne, Governor, Springfield, Illinois.

DEAR SIR: The Forty-seventh General Assembly at the regular session, amended the Act creating the Department of Factories and Workshops, requiring that the Chief State Factory Inspector should report in writing to the Governor on the 30th day of June instead of December 15 annually. The result of his inspections and investigations, together with such other information and recommendations he may deem proper.

In order to comply with this amendment the results of inspections during the period from December 16, 1910, to June 30, 1911, are hereby compiled in the form of a supplementary report. The results of inspections from July 1, 1911, to June 30, 1912, are also presented under the same cover, the entire volume to be known as the Nineteenth Annual Report of the Department of Factories and Workshops.

Statistical tables herein contained, showing the results of inspections covering the total period of time from December 16, 1910, to June 30, 1912, had been compiled, but had not been printed at the time of my appointment as Chief of the Illinois Department of Factory Inspection. In order that the files and records of the department may be kept intact, the material is hereby embodied in report form and respectfully submitted.

The Forty-seventh General Assembly passed two laws, one, an Act to promote the public health by protecting certain employees in this State from the dangers of occupational diseases, and providing for the enforcement thereof; this Act is commonly known as the occupational disease law; the other, an Act to regulate and limit the hours of employment of females in any mechanical or mercantile establishment, or factory, or laundry, hotel or restaurant, or telegraph or telephone establishment or office thereof, or in any place of amusement, or by any express or transportation or public utility business, or by any common carrier or in any public institution, incorporated or unincorporated in this State, in order to safeguard the health of such employees; to provide for its enforcement and a penalty for its violation. This Act is commonly known as the *Woman's Ten Hour Law*. The above laws were approved and went into effect July 1, 1911. The enforcement of these two laws was placed under the jurisdiction of this department.

Part 1 of the report will show statistical tables covering inspections made by the department from December 16, 1910, to June 30, 1911.

Table 1 shows number of inspections and employees working in establishments inspected under the child labor law.

Table 2 gives the divisions of inspections between the city of Chicago and cities outside of Chicago and Cook County.

Table 3 is a classification of industries inspected in Chicago and the results of the inspections in these industries under the child labor law.

Table 4 gives results of inspections under the child labor law in cities outside of Chicago and Cook County.

Following in their order are statistical tables showing results of inspections both in Chicago and Cook County, and in the cities outside of Chicago and Cook County, under the structural iron law, butterine and ice cream law, metal polishing wheel law, health, safety and comfort law and results of prosecutions.

Part 2 of the report includes statistical tables showing results of inspections under the various laws for the year from July 1, 1911, to June 30, 1912. The statistical tables therein shown are in the same order and show the same results as tables in part 1, with the addition of tables showing the results of inspections under the woman's ten hour law and a brief article on the activities of the department in enforcing the occupational disease law.

PART I

Statistical Tables Showing Results of Inspections for the
Period from December 16, 1910, to June 30, 1911

TABLE NO. 1

THE FOLLOWING TABLE WILL SHOW THE RESULTS OF INSPECTIONS FOR
THE PERIOD FROM DECEMBER 16, 1910, TO JUNE 30, 1911

Total number of inspections in the state of Illinois.....	14,561
Number of places inspected for child labor.....	12,680
Number of places inspected for child labor in Chicago.....	2,841
Number of places inspected for child labor outside of Chicago.....	9,839
Number of places inspected for construction of bridges and buildings in Illinois.....	24
Number of places inspected for manufacture of butterine and ice cream in Illinois.....	27
Number of places inspected under Health, Safety and Comfort Act in Illinois.....	1,233
Number of places inspected for metal polishing wheels in Illinois.....	58
Number of second inspections.....	539
Employees in establishments inspected in Chicago—	
Number of males over sixteen years of age.....	50,429

RESULTS OF INSPECTIONS UNDER THE OCCUPATIONAL DISEASE LAW, STATE OF ILLINOIS, FROM JULY 1, 1911, TO JUNE 30, 1912

The occupational disease law, which was passed by the Forty-seventh General Assembly and went into effect July 1, 1911, contained certain provisions which were entirely different from any other law under the jurisdiction of the Illinois Department of Factory Inspection. The Act provides for the preventing of diseases incident to the handling of industrial poisons, such as lead, arsenic, phosphorus, and other poisonous chemicals that enter into the processes of manufacture in any form. It was necessary for the department to first ascertain the establishment within the State which came under the provisions of the law. This task took up the greater part of the time of the department during the fiscal year covered by this report. The department had one physician during the year, and almost all of the field work connected with the enforcement of the Act fell upon him. It was necessary for him to visit establishments to determine whether or not they came under the law, to examine employees found working in the establishments visited, and to follow up cases of sickness reported from these establishments to the State Board of Health. Seventeen (17) orders were sent to as many different establishments, following the inspections made by the department physician. These orders are given below in condensed form in order to show the requirements of the law:

Alston Lucas Paint Co., Mfg. Paints.

Employees to be examined once each month by physician. Provide proper working clothes and respirators where necessary. Install washroom and dressing-room and lockers. Employees must not take food into workroom.

Bradley & Vrooman, Mfgs. of Paints.

Provide proper clothing and respirators. Separate lavatory and dressing-rooms with sufficient number of lockers. No employee allowed to take food or drink into workrooms. Provide dining-rooms. Employees examined once each month by physician who must report.

C. & N. W. Ry. Shops, Brass Foundry.

Employees must be examined once each month by physician. Physician must report. Employees must not take food or drink into workrooms. Separate dining-rooms, lockers and clothing must be provided.

Chicago White Lead Co., Mfgs. of Paints and Oils.

No employee allowed to take food or drink into any room in which process of manufacture is carried on. Proper washing facilities must be provided. Provide lockers with separate apartments. Provide proper working clothes. Provide medical examination once each month.

Crane Co., Brass Castings.

All brass furnaces, pickling, cleaning and galvanizing tanks to be equipped with hood and proper exhaust. No employees allowed to take food into any room where process of manufacture is carried on. Separate room provided for men to eat lunches. Proper washing facilities and lockers with separate compartments to be provided. All scrap must be dampened before handling. All employees to be examined once every month by regularly licensed physician.

DeVoe & Reynolds, Mfgs. Paints and Paris Green.

Employees must be examined once each month by physician. Proper clothing to be provided for employees. No employee allowed to take food or drink into workrooms, but dining-room must be provided for them.

Heath & Milligan, Mfgs. of Paints.

All employees must be examined once a month by physician. Proper working clothing must be provided for employees. Provide respirators where necessary.

Ludowici Celadon Co., Mfgs. of Roofing Tiles.

Containers of lead carbonate or any compounds of lead must be kept closed. Floor must be dampened and swept each day. Employees must wear respirators. Proper working clothing must be provided. Also lavatories and dressing-rooms with lockers. No employee allowed to take food or drink into workrooms but must eat in separately provided dining-room. Employees must be examined once each month by a physician who must make a report.

Meyercord Co., Mfgs. of Ornaments.

Employees must be examined once a month by a physician who must report. Proper clothing must be provided in rooms where china powder is handled. Provide washrooms and dressing-room and also lockers with separate compartments. Employees must not be allowed to take food in rooms where process of manufacture is carried on. Provide dining-room. Floors must be dampened and swept every day.

Sherwin-Williams Co., Mfgs. White Lead Paints and Paris Green.

Employees must dampen floors before sweeping.

Universal Electric Storage Battery Co., Mfgs. Electric Storage Battery.

Employees must be examined once each month by a physician. Sprinkle floor before sweeping in all rooms where lead is handled.

Verta Battery Co., Mfgs. of Batteries.

Employees must be examined once each month by physician. Physician must report. Provide proper clothing. Floors must be washed or scrubbed once every working day.

Vivax Storage Battery Co., Mfgs. of Storage Batteries.

Install hood with exhaust for carrying away fumes. Employees must be examined once each month by physician, who must report. Provide separate lavatories and dressing-room. Provide lockers for employees in dressing-rooms. No employee must be allowed to take food into workroom. Provide dining-room. Provide proper clothing and require use of same. Floors must be washed or scrubbed each day.

Wolfe Mfg. Co., Bath Tubs and Sanitary Supplies.

All employees must be examined once a month by a physician. Provide proper clothing and require that it be worn. Install hoods to carry away fumes. Provide washing facilities and lockers for clothing. Provide dining-room for men in which to eat lunch. Proper dressing-rooms and toilets must be provided.

Western Smelting & Refining Co., Smelters.

Employees must be examined once each month by a physician. Provide separate dining-room and lavatory. Provide locker in dressing-rooms. Employees must not take food or drink into workrooms, but separate dining-room must be provided. Provide suitable closed receptacle for drinking water. Provide working clothes.

Hoyt Metal Co., Granite City, Ill., Shot Factory.

Install ventilating hood over pots and furnaces. Provide adequate washing facilities. Provide lockers with separate compartments. No food allowed in workrooms. Provide separate dining-room and do not allow employees in workrooms during meal time. Furnish proper work clothes. Provide dressing-room and lavatory. Employee must be examined once a month by a physician.

National Match Co., Joliet, Ill., Matches.

Mixing Room.—Install adequate ventilating or exhaust device. Provide separate dining-room and washing facilities and require their use. Also lavatories and dressing-rooms. Lockers must be provided with separate compartments. Provide working clothes.

Match Room.—Adequate ventilating devices must be provided. No article of food allowed to be taken into room. Separate dining-room provided. Provide adequate facilities for washing and lockers with separate compartments. All employees must be examined once a month by a physician.
